WELCOMING SPEECH

Our challenge as an Internist in the future is both heavy and complex. The development of science and technology brings us to artificial intelligence that could replace the role of doctor.

As an Internist, we have to face that problem and use artificial intelligence as technology to serve better health care, more precision, more qualified toward precision medicine.

Executive board of Congress Indonesian Society of Internal Medicine held 18th National Congress 2022 in Semarang with general theme The Role of Internist in Global Health Improvement in Artificial Intelligence and Big Data era for the preparation in facing challenges in the future. This congress will be held in Hybrid Format because of pandemic COVID-19 that is not yet over and to make sure health protocol management.

As the delegation of committee of 18th National Congress Indonesian Society of Internal Medicine in Semarang, 2022, we hereby invite all colleagues to participate in the congress that will be held on July of 13th until 17th 2022 in Semarang. Semarang is a beautiful city that has many tourism object and capital of Central Java Province. Semarang also offers so many entertainment and shopping center, various and delicious culinary. **See you later, online and also at Semarang!**
